Dear Hiring Manager,

I am a **highly motivated, enthusiastic** UX/UI designer, keen on leveraging my skills in a dynamic professional setting. I bring **positive mindset**, a strong sense of **empathy** and hands-on experience I gained acquired through team projects.

In my recent work, I have successfully managed every phase of the design process, from conducting **user research** and **creating journey maps** to **sketching** initial concepts and developing **interactive prototypes**.

Skilled in **Figma**, I use it for design and prototyping, **FigJam** for brainstorming and teamwork, and **Canva** for creating compelling visual content. Always trying to use the best tool for the job, I'm interested in learning and using new tools and ways to get the job done. I consider an **AI** to be a helpful companion and can effectively use tools like **ChatGTP, Dall-E** and others.

I am excited about the possibility of discussing how my background, skills, and enthusiasms can align with the goals of the company. Attached, please find my resume and portfolio that outline my projects and accomplishments.

Sincerely,

Aida Hemassi
